PAPGEC Pvt Ltd

Triple Wall Corrugated Board

RO Water Plant

PAPGEC Pvt Ltd is the Organization, based in PAKISTAN and dealing the industrial Projects from design, Erection-Commissioning till the finishing of the Turnkey Project and providing the Skilled and Technical Labour with hefty of experience on the international grounds all over the world and equipped with the Technical degrees/Diploma of Engineering, DAE's and PhD degree holder from the International universities and serving as the Consultants for our Quality Clients all over the World.

Mission: **PAPGEC** to cover a full spectrum of Paper Industrial services along strategy, innovation, Industrial upgradation, Development and Planning along Technical consultancy and Complete innovative support with an experienced Team for industry across the border as per the International Standards with a proactive approach and strong slogan i-e Qualitative and Quantitative Responsible.

Vision: **PAPGEC** containing a broad vision as to generate an important place among the Technical industrial community. We will ultimately serve all the international versions while maintaining appropriate scale and thorough accountability to our local community too along Overseas. The purpose is to serve the Industry more than to generate revenue.

**PAPER/BOARD/
TISSUE**

**Corrugated
Packaging**

**Flexo/Digital/
Offset-Printing**

**WATER Treatment
ETP/WWTP/RO/STP**

We believe that the industrial growth always depends largely upon the manpower/Workers, who play a vital role in the growth of Capital & Profits and to multiply more and more segments and flourish towards innovations of the business side and to compete the market

competitors and be parallel with the SOP's along the world's changing Technological-stigmas towards high ends based on new ideas. For attaining and gaining the Company goals, We play a role with our Technical and skilled staff for achieving the defined end-Results which we commit before the agreement/Contract with host company.

Training: We never cling with the Company to be burden but within the defined version of time, We train the Local-Workers and hand over the project to host company Management to recover the cost and meet-up the ROI's very soon.

Documentations: During our services and stay with host company, We Process and complete all the crucial data of the Company to make in a settled-Loop.

PAPER-PULP/Board/Tissue:

PAPGEC along with the deep history in PAPER-PULP, Board & TISSUE domains and containing complete Technical Teams for serving the relevant industries from ground dig till the running and sustaining the Qualitative and Quantitative leads in Production, Electrical, Mechanical and instrument Teams. We have more than 200 Technical Personnel serving round the globe with hype in Technicality and innovative approach in a proactive way towards new and old Turnkey projects Specially in Paper industry with the following aspects to work on.

- Paper Qualitative and Quantitative Record Production achievements in existing frame.
- Capacity enhancement in an economical way by adding and removing extravagant in the system.
- Equipment Logical control Loop development.
- Tremendous Teamwork scenario development by training local workers.
- Best Process and Operational Technicality handling.
- Pitfall studies on the Technology and Technical basis.
- SPP Raw material selection strategies to develop.
- Fiber calculations to improve yield of the Pulp Plant.
- CEL & SEL configurations for Refining system.
- Fiber percentage control dynamics.
- Cleaning steps to improve for quality purposes.
- Chemical Consumption controls.
- Fiber layout savings and Zero fiber Control striations.
- Chest Control Mechanism.
- Approach flow amendments.
- Designs for making system easy to approach for Workers for best efficiency to show.
- Wet end Techniques along Headbox calculations, Lip adjustment, velocity and pressure formation suggestions as per products and to control gsm variations.
- Press part and dry end correlations control for best dry contents graphs to avoid crackings in paper.
- HNC and SNC adjustable graphs.
- Coating head installations along running the fit finishing of coating.
- Graphs towards the Competitors and Market leaders.
- CCK development for coating products.
- Pope end to Winding, Rewinding and till to Finishing house solutions.
- Process and operational Troubleshooting tricks.
- ETP solutions along Fenton plant by converting to Reuse Water and reducing the fresh water consumption along controlling the sealing water specs.
- Documentations for all Paper industry from SPP, Process Parameters, Wet end, Dry end, Daily-Weekly-Monthly Production reports along graphical representation and record data savage for head office and future aspects.

We have following Experts:

- Production Manager.
- Process Manager.
- Manager Operations.
- Manager Mechanical.
- Manager Instrument and control.
- Manager Electrical.
- Manager Production (SPP)
- Manager QA / QC
- Shift Managers.
- Shift Leaders.
- Shift Incharges.
- DCS Experts.
- Equipment Specialists.
- Field Operators for SPP.
- Shade making and dyes control experts.
- Coating Operators.
- Machine Operators.
- QA and QC Incharge.
- ETP and WW-Treatment Experts.
- Wet end Experts.
- Dry end Operators.
- Pope man.
- Rewinder Experts.
- HVAC Incharge.
- Fork Lifter operators.
- Office Management Data Team.
- Data Entry Operators.

Corrugated Packaging & Printing:

PAPGEC is purely market leader in Providing the Corrugation Technical staff for covering all areas with all Expertise in the followings.

- Corrugation.
- Auto/Semi Auto & Manual.
- Glue Recipe makings.
- Quality control aspects.
- Troubleshooting.
- European and Chinese brands.
- Instrument Logical loop.
- Electrical Aspects.
- Mechanical Aspects.

Printing Areas:

If come to the Printing range then it is such experts for giving good ends to the as followings.

reliable to have Printing handling

- Case Maker/inline.
- FFG
- Laminated Machine.
- Digital Printing.
- Flexo Printing.

Qualitative & Quantitative Responsible(Project Team)

WATER Treatment: We are the Experts in providing the Water Treatment, Control, Sustained-implementation, Troubleshooting and innovative maintained-solutions as per the INTERNATIONAL SOP's.

- Water treatment Solutions.
- Waste Water Treatment Plant (WWTP).
- Effluent Treatment Plant (ETP).
- Fenton Plant.
- RO plant installation.
- RO Plant Sustainability Control.
- Cooling Towers (Erection to Controls).
- Condensers calculation and installation.
- Fresh Water Consumption Reduction.
- Re-Use Water Feasibility.
- CIP.
- Chemicals Selections.

We have Project history in PAKISTAN, UAE, TAJIKSTAN and many others in Pipeline in IRAN also.

Quality-Audit/Standardization.

Services (Audit, Inspection, Training, Certification, Verification & Validation). Specialized in the entire range of ISO Management system and GFSI recognized certification scheme such as,

- BRCGS,
- FSSC 22000 Certification Scheme.
- BRCGS Food Safety Issue 08 Certification
- BRCGS Consumer Products.
- Organic Certification.
- IFS Consultancy And Training.
- ISO 14001 2015 HBO Certification Consultancy
- BRC GS Packaging Material Issue -06
- FAMI QS
- Supplier Audit
- Halal Certification

Turnkey Projects

- 17025 Accreditation Consultancies
- LAYOUT DESIGNING AND APPROVAL
- BRC GS Storage And Distribution Issue -04
- GMP Certification Consultancy And Training
- ISO 9001 2015 Certification Consultancy And Training
- HACCP Certification Consultancy And Training
- FSSC 22000 Certification Consultancy And Training
- ISO 22000 2018 Certification And Training.
