

TD ARIANT-A LLC

FOOD FIBER

High-quality vegetable fiber.
Organic solutions for your business

Product

We offer fiber of three types: "FoodFiber 90", "FoodFiber 200" and "FoodFiber 500". Full control at all stages of production. Attention to details is what leads to high results!

Non-GMO, Green label, Halal

Dietary fibers enrich food — improves the structure and quality, reduces the amount of cholesterol in processed products.

FOOD FIBER

Using fiber means taking care of your customers and end buyers. Consumption of such products stabilizes the sugar level and improves the microflora.

Dietary fiber is in demand in variety of segments of the food industry: **meat, bakery, pastries and dairy production.** As well as for the feed, sauces and juices. It is especially relevant for companies promoting healthy nutrition. It perfectly suits fitness products!

About the plant

1. One of the largest fiber manufacturers in Russia.
2. We cover most of the market in Russia and the CIS countries
3. The production uses modern German-made equipment
4. Delivery from Kaliningrad to Vladivostok
5. Export to Kazakhstan, Georgia, Tajikistan, Uzbekistan, Moldova, Azerbaijan, Turkey and more...

Our production facility is built according to modern standards in compliance with building codes and regulations, which are confirmed with all required certificates. We are truly proud of our company and invite potential clients to visit our production

Our team

Working together to grow and develop further. Each employee is a professional in his field.

We strive for absolute understanding and coordinated work. Our goal is to develop healthy products for all people.

We are happy to share our knowledge and experience with all participants.
